REPORT

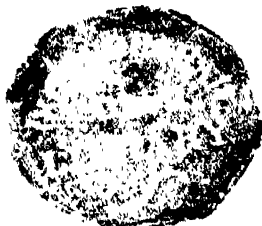

ON THE

EXTERNAL TRADE OF BENGAL

WITH

NEPAL, TIBET AND SIKKIM, AND BHUTAN

FOR THE YEAR 1886-87.

No change was made during the year under report in the system of registering the external trade of Bengal with Nepal, Tibet and Sikkim, and Bhutan, passing along all the important trade routes. The number of such routes on the northern frontier of Bengal, between the districts of Chumparun and Julpigoree, was 33, as detailed below :—

GENERAL  
NOTICE.

4. The aggregate value of these two sections of the registered trade during the past year, is compared below with the figures of 1885-86 and 1884-85.

YEAR.	Imports.	Exports.	Total.
	Rs.	Rs.	Rs.
1884-85	78,35,676	74,55,405	1,52,91,081
1885-86	1,01,16,098	58,78,950	1,59,95,048
1886-87	1,09,94,173	59,95,297	1,69,89,470

The total trade showed an increase of 6.22 per cent. and 11.11 per cent. as compared with 1885-86 and 1884-85, respectively. The increase in the import trade was 8.68 per cent. over the figures of 1885-86, and 40.31 per cent. over those of 1884-85. There was an improvement of 1.98 per cent. in the export traffic of the past year as compared with 1885-86, but a falling off of 19.58 per cent. is observed when comparison is made with the returns of 1884-85. A detailed account of the traffic registered is given separately for each of the States in the following pages.

TRADE WITH  
NEPAL.

5. The total value of the trade between Bengal and Nepal registered during the year 1886-87, as compared with the figures of the preceding two years, was as follows:—

YEARS.	Imports from Nepal.	Exports to Nepal.	Total.
	Rs.	Rs.	Rs.
1884-85	72,16,819	68,18,097	1,40,34,916
1885-86	93,18,431	52,27,817	1,45,46,248
1886-87	1,02,77,226	52,90,285	1,55,67,511

The total value of goods registered during the past year was 7.02 per cent. in excess of that of the preceding year, and 10.92 per cent. above that of 1884-85. Compared with the previous year, the increase in the import traffic was 10.29 per cent. and in the export traffic 1.19 per cent. The most noticeable features in the trade of the year are an increase under rice (1,65,842 maunds), paddy (1,56,658 maunds), gram (62,475 maunds), silver (Rs. 95,811), European piece-goods (Rs. 62,306), mustard seed (48,910 maunds), linseed (31,583 maunds), and miscellaneous spring crops (19,954 maunds); and a decrease under rain crops (93,724 maunds), timber (68,780 maunds), silk, manufactured (Rs. 51,334), and hides (13,357 pieces).

6. The following comparative statement shows the total trade, import and export, in each of the chief articles of trade during the past three years. The figures given below, however, represent the net traffic between Bengal and Nepal, after deducting such portion as passed into and from other provinces through Bengal:—

TRADE WITH  
NEPAL.

7. *Cattle*.—The import trade in cattle showed an increase of 42·68 per cent. on the returns of 1885-86, and of 3·85 per cent. on those of 1884-85. Of the number imported in 1886-87, Chumparun received 13,509, Mozufferpore 10,445, Purneah 3,208, and other districts 3,206.

8. *Cotton piece-goods*.—There has been a slight recovery in the trade in European piece-goods, of which Rs. 16,46,437 worth were exported to Nepal during 1886-87, against Rs. 15,57,508 worth in 1885-86, and Rs. 18,64,682 worth in 1884-85. Almost the whole of the last year's supply is believed to have passed into consumption, for the total value of unsold fabrics which were returned to British territory amounted to only Rs. 24,011, against Rs. 50,634 and Rs. 35,295 in 1885-86 and 1884-85, respectively. In the case of Indian piece-goods, the export figures indicate a slight increase of 6·74 per cent. on the returns of 1885-86, but they are still 48·41 per cent. below the trade of 1884-85. The following statement shows the value during each of the past three years of European piece-goods exported through each registering post, district by district :—

9. *Food-grains*.—The trade has largely expanded; the total supply imported from Nepal amounted to 22·04 per cent. over the quantity recorded in

1885-86, and to 66·41 per cent. over that registered in 1884-85. The following statement shows the total traffic for each staple separately during the past year as compared with the totals of the preceding two years:—

It will be seen that there was an increase in all sorts of food-grains with the exception, of 'miscellaneous rain crops,' which fell off by 31·33 per cent. and 5·71 per cent. as compared with the two previous years, respectively. The different registering posts through which food-grains were received from Nepal are shown in the subjoined table :—

10. *Hides of cattle.*—The improvement noticed in the import trade in hides during 1885-86 was not maintained during 1886-87. The total number registered showed a decrease of 13,357 pieces as compared with 1885-86, and of 9,826 pieces as compared with 1884-85. The statement below gives the names of the

registering stations in which the largest number of hides were registered during the past three years :—

Of the past year's imports, Chumparun received 9,814 pieces, Calcutta 8,737 pieces, Bhagulpore 5,574 pieces, Mozufferpore 4,919 pieces, Darjeeling 3,198 pieces, and other districts the remainder, viz., 6,356 pieces.

11. *Skins of sheep, goats and small animals.*—The total trade under imports aggregated 61,676 pieces, or 2,581 pieces below the total of 1885-86, and 12,692 pieces below those of 1884-85. The greatest improvement was in Calcutta (22,592 pieces), and the largest decrease in Mozufferpore (25,090 pieces).

12. *Brass and copper.*—The export trade under this head is steadily declining, the total quantity having fallen off from 12,978 maunds in 1884-85 to 11,540 maunds in 1885-86, and 9,320 maunds in 1886-87. The chief districts which contributed to the decrease during the past year as compared with 1885-86 were—Calcutta (1,138 maunds), Patna (516 maunds), and Chumparun (154 maunds).

13. *Iron.*—The trade in iron would appear from the returns to be fast declining. The total quantity exported to Nepal was only 9,815 maunds, against 17,900 maunds in 1885-86, and 20,185 maunds in 1884-85. The principal districts from which the exports were smallest as compared with 1885-86 are Calcutta (9,518 maunds) and Chumparun (1,530 maunds).

14. *Ghee.*—The total quantity imported shows a falling off of 38 65 per cent. as compared with 1885-86, and of 52 23 per cent. as compared with 1884-85. The different posts at which the largest quantities were registered in those years are as follows :—

19. *Silk, manufactured.*—The export trade was very slack during the past year; goods to the value of only Rs. 23,184 were sent to Nepal, against Rs. 74,443 worth in 1885-86, and Rs. 45,413 worth in 1884-85. The bulk of the exports during 1886-87 passed through Ruxoul (Rs. 8,351) and Adapore (Rs. 9,000) in the Chumparun district.

20. *Spices.*—The total quantity registered under this head showed an increase of 18·67 per cent. on the trade of 1885-86, but a decrease of 19·83 per cent. on that of 1884-85. Compared with the previous year, the figures showed an advance under imports as well as under exports. The registering stations where the largest quantities were intercepted during the year were—

21. *Sugar.*—The total quantity of drained sugar sent to Nepal was 2,779 maunds, or 61·11 per cent. in excess of the figures of 1885-86, and 9·56

per cent. over those of 1884-85. The exports of undrained sugar was much the same as in the previous year, but they were below the trade of 1884-85 by 3,542 maunds, or 12·67 per cent. Of the exporting districts, Chumparun supplied 4,401 maunds of drained and 11,599 maunds of undrained sugar; Mozufferpore 690 maunds of drained and 2,024 maunds of undrained sugar; and Durbhunga 663 maunds of drained and 4,021 maunds of undrained sugar.

22. *Tobacco*.—The quantity of tobacco exported to Nepal was about 13 per cent. in excess of the totals of the two previous years. The largest supplies were made from Chumparun (13,343 maunds) and Mozufferpore (7,402 maunds). The import trade, however, fell off by 4,956 maunds as compared with 1885-86, and by 1,036 maunds as compared with 1884-85.

23. *Timber*.—The import timber trade showed a decrease of 68,780 maunds and 1,69,396 maunds as compared with 1885-86 and 1884-85, respectively. The different routes through which these supplies were carried are named below—

The decrease in the supplies carried from Calcutta amounted to Rs. 54,576, and from Chumparun to Rs. 10,848. The bulk of this traffic passed through Ruxoul (Rs. 47,928), Kutkenwa (Rs. 29,250), Adapore (Rs. 5,905), and Ghorasan (Rs. 3,150)—all in the Chumparun district.

25. *Silver*.—Last year the imports under this head showed an increase of Rs. 30,214 and Rs. 10,63,901 as compared with 1885-86 and 1884-85, while the exports advanced by Rs. 65,597 and Rs. 87,616 in those years respectively. The principal registering stations were—

26. The delay in the submission of this report is due, first to the action of the Commissioner in requiring the Deputy Commissioner to prepare his report for the calendar instead of the financial year, and second, to the necessity of revising the figures in order to avoid a double record of trade at the stations of Kalimpong and Rhenok. These stations were selected because they are both important points on the high road from Darjeeling to the Tibetan frontier, and it was intended that they should be used as a check on one another. A good deal of trade from Tibet, however, which comes down through Rhenok, does not come to Kalimpong, but goes down to the plains through Labha and Damdin; and some trade goes through Kalimpong into the mart of Guntuck in Sikkim—whence there are considerable transactions with Tibet—without passing Rhenok. The figures submitted in the last report did not distinguish trade registered at one station only and trade registered at both. Steps are being taken to revise the arrangement of the registering stations. Meanwhile the Deputy Commissioner of Darjeeling has furnished revised figures, showing separately the trade of Bengal with Tibet and Sikkim during the two

years 1885-86 and 1886-87. Details of this traffic, month by month, as well as for the whole year, are embodied in the appendices to this report, and these should be substituted for the statements previously submitted to the Government of India in respect of these two sections of the trade.

27. According to the statistics now furnished,—which, as will be explained below, show the transactions of 1886-87 to have been greater, and those of 1885-86 to have been less than in ordinary circumstances they would have been—the total value of the trade with Tibet and Sikkim separately during the past two years was as follows:—

28. The following extract from a letter written by the Deputy Commissioner to the Commissioner bears upon these figures:—

In my No. 65G., dated 18th April 1887, I ventured to point out that the change from the financial to the calendar year as regards the Tibetan trade rendered the figures supplied in accordance with your instructions obsolete and worthless, inasmuch as the bulk of this trade is carried on in December to March. The result in this year's (calendar) report shows a large increase in Tibetan exports and imports, whereas it is a sad and notorious fact that a strict blockade has been maintained since July at all events, if not before, up to date. This result has also been intensified by a former blockade maintained from the middle of September 1885 to the end of January 1886, which caused an extra influx and efflux of goods in the beginning of 1886 (*vide* paragraph 25 of last year's General Administration Report). I now beg to supply figures for the financial year, which show a slight increase on the whole as regards Nepal and a slight decrease as regards Sikkim. The second table as regards Tibet shows that owing to the stoppage of trade at the end of 1885, the return traffic (*i.e.*, exports into Tibet) was much later than usual, being most considerable in April and May instead of February and March. Omitting the first four months of the year, there has been, as already reported, a very serious decrease. Imports from Tibet begin in October, and, as might have been guessed, show therefore a distinct falling off for the year. As regards the trade proper for the financial year, we may say that there has been a substantial decrease.

29. It will be observed that the trade of April, May, June, and July 1886,—of which the greater part, as Mr. Paul shows, would, but for the blockade established in September 1885, have passed in the previous year,—amounted to Rs. 3,44,420, against Rs. 33,363 during the corresponding period of 1885. It is clear, therefore, that the trade which would ordinarily have been registered for 1885-86 really exceeded nine lakhs of rupees, while that which belonged to 1886-87 only amounted to two lakhs. A comparison between the busy months of January, February, and March gives particularly striking results. The trade registered in January, February and March 1886 amounted to Rs. 4,98,135: the trade registered in January, February and March 1887 amounted to only Rs. 64,598. The following statement shows the fluctuations of traffic with Tibet month by month during 1886-87 as compared with the figures of 1885-86:—

30. A similar statement illustrates the Sikkim trade, month by month, in those years, and it will be seen that these influences had a like effect on the trade which is registered as Sikkim trade. A good deal of this goes to Tibet by other passes than the Jeylep, but cannot be distinguished in the returns from the local Sikkim trade:—

32. The figures of the traffic registered during the past two years have been given above, but it has been ascertained that, as was reported in previous years, there is always a great deal of valuable traffic which escapes registration. The following cases, which have been reported by the Manager, Tendook Pulgar, are extremely significant as showing, first, that the Tibetan monks are individually interested in the trade with India; and second that, notwithstanding the blockade at Lingtu, those belonging to the great Lhasa monasteries are allowed facilities for engaging in the trade by the short and easy route through Sikkim and Darjeeling, while to others this route is practically closed:—

- (1) A monk of the Sera monastery at Lhasa arrived at Rhenok on his way to Calcutta with Rs. 10,000 worth of yak-tails and musk, and Rs. 3,000 in cash. He was not stopped or interfered with at the Lingtu fort, as he represented Sera. After disposing of his goods in Calcutta, he returned to his country by the same route with articles of trade which were not registered.
- (2) A Kashmiri (Kachi) Mohammedan merchant, managed to send two loads of musk (value from Rs. 75,000 to Rs. 80,000) to Darjeeling by way of the Kongra Lama Pass and the Lachen valley. He was, however, himself obliged to travel *via* Khatmandu, whence he came to Darjeeling *via* Calcutta. After taking charge of the musk at Darjeeling, he proceeded to Benares, Delhi and Bombay, and three months later returned to Tibet *via* Nepal with Indian merchandise. It would have been useless for him to attempt to take his goods back through Sikkim. In connection with this case it may be mentioned that the Deputy Commissioner reports having met in the Terai six Tibetan traders taking Rungpore tobacco (for which there is a large demand in Tibet) to Gyantse by a circuitous and difficult route through Nepal, in order to avoid the blockade on the Jeylep road. Gyantse is only seven days' easy journey from the Jeylep Pass, which is, according to the last survey, only 72 miles by a good road from Darjeeling.
- (3) A monk of the Chai-ril monastery, close to Lhasa, arrived at Jore Bungalow, on the Darjeeling Railway, with two ponies for riding, 25 laden mules, 32 tolas of gold-dust, and Rs. 35,000 in silver. He sent the animals back to Kalimpong, and proceeded to Calcutta and Bombay, whence he returned with broadcloth, chintzes, turquoise, corals and other valuable merchandise which he took into Tibet without registration.

DUTIES ON THE  
NEPALESE  
FRONTIER.

36. From the reports received it appears that the only districts in which changes were made during the past year in the rates of duty levied by the Nepalese authorities were Purneah, Mozufferpore, and Darjeeling.

27. *Purneah.*—The duties levied on the frontier of the Kissengunge subdivision have remained unchanged since 1883-84. In the Arrareah subdivision, however, some alterations in the rates of duty were again made during the past year under the three heads, viz :—

1. Taken at chowkies.
2. Ditto from shop-keepers at hâts or markets.
3. *Nikusi* or duties taken by *ijaradars* or contractors or farmers from persons purchasing things on market days.

The statements below show the changes made during the year in the mposts levied under each of the three heads :—

*Taken at chowkies.*

38. *Mozufferpore*.—In paragraph 15 of the report for 1883-84 it was stated that duties were levied on the frontiers of this district according as goods were conveyed by cooly, pony, bullock, or cart. In 1884-85 and 1885-86 no changes took place in the rates, but in 1886-87 the following fixed scale was introduced by the Nepalese authorities :—

39. *Darjeeling*.—The number of collecting stations and the mode of collection remained the same as in 1885-86, both as regards the hills and the Nepal Terai. In the case of articles imported from Nepal, the only change made was to levy a duty of one anna per cooly-load at the terai stations of Dhoolabari, Dahuguri, Baradhési, and Ghylodhooba, on raw jute and gunnybags, which were hitherto carried at the rate of two annas per pony load, and eight annas per cart load. As regards the exports to Nepal, the tax of eight annas levied in 1885-86 at the abovementioned stations on a cooly load of raw cotton was changed during the past year to two annas per pony load and eight annas per cart load. Cotton piece-goods (European and Indian), which were taxed in 1885-86, at four annas and two annas per cooly load respectively at Dhoolabari, were last year charged at the rate of two annas per pony load and eight annas per cart load. The charge of two annas per cooly load of turmeric levied in 1885-86 at Dhoolabari, Dahuguri and Baradhési was similarly changed.

40. The total quantity of untaxed foreign salt imported into British territory from trans-Himalayan sources in 1886-87 was 9.97 per cent. in excess of the imports

TIBETAN SALT.

during the previous year, as will be seen from the comparative statement below:—

				1884-85.		1885-86.		1886-87.

Total				...	741 20	...	351 1	...	386 4

**TIBETAN SALT.**

The increase was entirely in the imports into Darjeeling, which rose by 15·64 per cent. as compared with 1885-86; compared, however, with 1884-85, the imports into that district exhibit a decrease of 48·74 per cent. The quantity brought into the Darjeeling district during the past year was registered at the following stations:—

			1885-86.	1886-87.	
			Mds. s.	Mds. s.

Goompahar	...	...	210 5	152 25	
Total	...	...	316 25	366 6	

The quantity imported into Julpigoree and registered at Buxa declined by 42·01 per cent. as compared with 1885-86, and by 26·65 per cent. as compared with 1884-85.

The rates given are in English money, and are levied on imports into Nepal only on articles which are not taken to shops of traders or to hats in Nepal. As to articles exported from Nepal and imported into India, nothing is taken from those persons who buy grain from cultivators and pay the *kayals* (a fee for weighing the grain), nor from those persons who buy at hats in Nepal and pay hat dues there.

The import and export duties levied on articles taken to the fair at Bara Chatter are as follows:—

	Rs. A. P.
